MOSES' FAMOUS GLADIOLUS

A SUPERIOR and EXCITING GARDEN COLLECTION

Something You Can Enjoy and Talk About

GIANT FLOWERING

Without a doubt the most popular assortment we ever put out. The variety is superb, the color range outstanding. At least 30 varieties of equal proportion go into this fine mixture. Each year a new group of varieties go into it, and often times, varieties that list for as much as 50¢ each and then you buy for as little as 5¢. You just can't beat this.

5 large bulbs each

50 for \$3.75

FRAGRANCE - SWEET - AROMA

ACIDANTHERA MURIELAE
(Sweet Scented Gladiolus)

Grows just like a glad. Pure white with dark purple center. Bulb and plant look like a glad and are cared for in the same manner. Extremely sweet.

TUBEROSE

Delightfully fragrant, wax-like flowers carried on 2 ft. spikes that make very desirable cut flowers. Plant and care for the same as glads.

PLANT a few groups around in your perennial border or flower garden for that extra delightful fragrance.

Extra Top Size Corms: 6 bulbs \$1.20; 12 for \$2.00; 100 for \$12.00
1 Dozen of each for \$3.50

THE NEW ALL DOUBLE HOLLYHOCK

GLAD

The first new all double Glad ever introduced. This is not a freak like some other so called doubles, but a glad with as perfect a plant and spike as Spic & Span, and as it grew for me in ordinary field culture, just as dependable.

Named VIOLA and introduced by Charles Auchey, this glad is as full and double as a hollyhock, is a light lavender, grows 4 foot. 15 to 18 florets and fine healthy rugged plant. Mr. Auchey has dozens of other seedlings (I have grown 3 others), all fully double. These are a hybridist's dream. 1000 bulbs only for sale this year.

Each \$1.00 6 for \$5.00

\$6.00 for 100

\$12.75 per 250

Medium size bulbs,

\$4.50 for 100

\$10.00 per 250

DAHLIAS

The ideal annual landscape plant. A few clumps mixed into the perennial border, used as a foundation plant against the house or garage, even on the shady side, can do wonders through the summer and fall. Many varieties are unsurpassed as cut flowers.

The Numbers (9x3) indicate diameter and depth of bloom.

ALFRED L. MOSES - Lima, N.Y.

Gladiolus DDT

DDT has been found to be very effective against Gladiolus thrips, the tiny insect that sucks the life out of the bloom and foliage as well as feeds on the bulb in storage. During the growing season the plants should be dusted or sprayed every 7 to 10 days from the time they are a foot high until the blooms open. It can be used as a dust or spray.

5% DDT DUST

4 lbs. (postpaid in U. S.) 2.85
50 lbs. (f.o.b. Lima, N. Y.) 27.50

ARASAN

(Fungicide)

The use of ARASAN has increased due to the fungus diseases in storage. It should be dusted on the bulbs as soon as they are dug and again after they have been cleaned. DDT should be added for thrips control.

Dust for Control in Storage

Tests show that either Arasan or Spergon dusted on Gladiolus bulbs at digging time, and again after cleaning when they are put away for the winter, materially checks the advance of the fungus type of Gladiolus disease. These have been recommended as a dust treatment to replace the dip method of using New Improved Ceresan. Just dust the bulbs heavily and plant, and the dust will tend to immunize the bulb. Wettable Spergon can be used if the dip method is preferred.

Spergon Gladiolus Dust

A mixture of Spergon (a fungicide) and DDT. If you use this you do not need to use DDT dust in storage. Dust at digging time and again at cleaning time.
